PROFILE

- Third-year B.Tech Computer Science student (9.3 CGPA) at Centurion University of Technology and Management.
- Full-stack developer with hands-on experience across React, Spring Boot, and JSP/Servlets, plus practical exposure to Generative AI integration.
- Built four self-driven projects spanning e-commerce, team collaboration, blogging, and DSA practice — including one built for the Razorpay Buildthon hackathon.
- Certified across React, Spring Boot, Java, DSA, and Generative AI; seeking a software development internship to apply these skills and grow as an engineer.

EDUCATION & SKILLS

B.Tech in Computer Science & Engineering

Centurion University of Technology and Management (CUTM), Bhubaneswar

2024 – 2028 (Expected)

CGPA 9.3/10

Languages & Frameworks

Java, JavaScript, React, Spring Boot, Spring AI, Spring Security, JSP & Servlets, Node.js

Databases

MySQL, MongoDB

Other

Generative AI App Development, Prompt Engineering, Data Structures & Algorithms, System Design

PROJECTS

Vastra Fashion — *E-Commerce Platform*

BUILT FOR RAZORPAY BUILDTHON — AI AGENTIC E-COMMERCE HACKATHON

Tech Stack: *React, Spring Boot, Spring AI, Spring Security, MySQL, Razorpay, JWT*

- Built a full-featured e-commerce web application with React, Spring Boot, Spring AI, and Spring Security.
- Implemented core e-commerce functionality including product catalog, categories, cart, wishlist, checkout, orders, and Razorpay payment integration.
- Developed AI-powered assistants for both customers and merchants, enabling product discovery, recommendations, business insights, profit optimization, and delivery optimization.
- Integrated AI tool-calling with backend services to enable action-oriented, context-aware commerce workflows.

View Repository

CollaBrix — *Project Collaboration & Team Management Platform*

Tech Stack: *React, Tailwind CSS, Spring Boot, Spring Security, JWT, MySQL, Java*

- Developed a full-stack collaboration platform enabling users to create projects, discover collaborators, and manage participation through an "I'm Interested" request-and-approval workflow.
- Implemented user profiles, project management, member management, discussions, tasks, ideas, and file sharing within a dedicated project Playground.
- Integrated GitHub repository links and project workflows for streamlined team collaboration.

View Repository

Tech-Blog — *Blogging Platform using JSP & Servlets*
Tech Stack: *React, JSP, Servlet, MySQL*

- Developed a blogging website enabling users to write and publish their own blogs about technology.

View Repository

LeetCode Solutions — *Pattern-Wise DSA Practice Repository*
Tech Stack: *Java*

- Maintains a growing, pattern-wise organized repository of LeetCode solutions (sliding window, two pointers, DP, graphs, etc.) to reinforce core DSA concepts.
- Documents the reasoning and approach behind each solution for quick revision and interview preparation.
